

# Rice management dashboards in CY25

## New developments

- **One dashboard** per grower
  - all farms, all paddocks, all years
- **New user interface**
  - larger fonts, less scrolling
- **Zonal predictions**
  - Indices, N uptake, grain moisture
- Enhanced handling of **cloudy** imagery
- New integration of **spatial maps**
  - NDVI, N index, N uptake, grain moisture
  - At each date
